ABOUT ME

I am a Computer Science student with knowledge of Python, Java, and JavaScript, along with experience building projects using Django and the MERN stack. I have worked on applications related to finance and algorithm-based problem solving. I am interested in Cloud Computing and AI/ML, and I am always willing to learn and improve my skills through practical experience.

EDUCATION

Class X and Class XII

- Class XII in 'Utkarsh School of Excellence' with 86%.
- Class X in 'Nirmala Convent School' with 95%.

LJ Institute of Engineering and Technology | Sep 2023 - present

Computer Engineering Undergraduate

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management, Web Development, Software Engineering, API Integration, Problem-Solving & Competitive Coding..

PROJECTS

NFT Marketplace Website | Sem-IV project

- Built a Django-based AI service for Ethereum price prediction using LSTM, improving accuracy by 18% with real-time CoinMarketCap data.
- Designed and developed an intuitive, visually appealing NFT marketplace interface ensuring seamless user experience for minting, selling, and reselling NFTs via MetaMask.
- Deployed Solidity smart contracts for NFT creation and ownership, tested with 30+ NFTs and achieved <3% transaction failures during trial runs.

Investify Website | Sem-III project

- Designed a clean, data-centric dashboard UI for real-time stock insights with <2s refresh rate and interactive charts for instant analysis.
- Enhanced user experience by enabling intuitive portfolio tracking with automated profit/loss visualization.
- Integrated advanced financial tools including candlestick charts, Monte Carlo simulations (1,000+ runs), and Black-Scholes models with user-friendly visual interpretation for better decision-making.

SKILLS

- | | | |
|-------------------|-------------------|-----------------|
| • Java, Python, | • API Integration | • Django & REST |
| JavaScript (ES6+) | • SQL, PL/SQL, | framework |
| • MERN Stack | MongoDB, SQLite | • Figma |
